📄 PROFILE

Second-year DUT Computer Engineering student specializing in full-stack web development and automation. Author of three hands-on projects combining PHP, JavaScript, Node.js, and artificial intelligence. First professional experience gained at ORMVA. Certified C1 in English, Advanced SQL, and React. Seeking a 2-month technical internship to actively contribute to digital projects in France or Morocco.

🌐 LANGUAGES

Arabic
Native

English
C1 (EF SET)

French
B1 (Intermediate)

German
B1 (ÖSD)

🧠 TECHNICAL SKILLS

Web & Frontend
HTML5, CSS3, React (basic)

Backend and Databases
Node.js, MySQL

Cloud & Automation
AWS Cloud Foundations (self-study, certification in progress), n8n

Tools & Environment
Git, Linux (basic), MS Office

Soft Skills
Teamwork, Adaptability, Attention to Detail, Problem Solving, Communication

📁 PROFESSIONAL EXPERIENCE

ORMVA – Office Régional de Mise en Valeur Agricole

Web Developer Intern

07/2025 – 08/2025 | Fquih Ben Salah, Morocco

- Designed and developed an internal web application for administrative management, reducing manual processes.
- Collaborated with the IT team to implement technical solutions tailored to business needs.
- Actively contributed to the organization's digital transformation initiatives.

🎓 EDUCATION

DUT – Computer Engineering

École Supérieure de Technologie

2024 – Present | Fquih Ben Salah, Morocco

- Algorithms, Web Development, Databases, Networks, Information Systems.

Baccalaureate – Physical Sciences

Lycée Al Kindi

2024 | Fquih Ben Salah, Morocco

📁 PROJECTS

Exam Management Web Application

PHP · MySQL · HTML/CSS · JavaScript

- Developed a complete application for managing exams, rooms, and invigilators.
- Implemented an automatic resource allocation algorithm, eliminating scheduling conflicts.
- Designed the database architecture and an intuitive user interface from scratch.

SaaS Platform – Automation & AI

Node.js · JavaScript · n8n · AI Tools

- Architected a full-stack productivity-oriented SaaS platform using Node.js and JavaScript.
- Integrated automation workflows via n8n and AI tools, significantly reducing repetitive tasks.
- Designed the application for optimal scalability and performance.

Internal Management Application (ORMVA)

PHP · MySQL · HTML/CSS

- Developed an internal administrative management tool, improving data and workflow organization.
- Digitized manual processes, contributing to the modernization of the information system.

📄 CERTIFICATIONS

- EF SET English Certificate — C1
- ÖSD Deutschzertifikat — B1
- Cisco — Introduction to Cybersecurity
- IBM — Big Data 101
- HackerRank — SQL (Advanced)
- HackerRank — Frontend Developer (React)
- AWS Cloud Practitioner (in preparation)
